

Carlton Visagie Resume

Front End Developer

Cape Town, South Africa, 7800 • carltonvisagie@gmail.com • +27 (0)61 622 7696 • [LinkedIn](#) • Code B Driver's License

SUMMARY

I'm a Front-End Developer with 4+ years of experience building scalable, high-quality digital solutions, and I'm actively expanding my skills to become a Full-Stack Developer. I enjoy taking projects from idea to launch, making sure the end result is both user-friendly and technically solid. Along the way, I've led development efforts, supported teammates, and helped improve workflows through clean code, reviews, and testing. I'm passionate about learning new tools, solving problems as a team, and creating applications that not only look good but also deliver real value to the business and users.

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

Think Digital Media | Hybrid | March 2022 – March 2025 | [website](#)

Key competencies: Front-End Development, UI/UX Enhancement, Ad Management, Network Configuration

Reason for leaving: Retrenchment (restructuring) & Career advancement

- Developed and maintained user-facing applications using Django and React frameworks.
- Directed UI/UX redesign projects in Figma, ensuring modern, user-friendly interfaces and alignment with brand guidelines.
- Configured and maintained network access points and Ruckus controllers to ensure seamless connectivity.
- Crimping the cables and making sure they working before going onsite.
- Creating Ad Campaigns and adding to the Console
- Collaborated cross-functionally with designers and marketers to deliver user-friendly solutions for captive portals and our management console features.
- Conducted comprehensive code reviews and bug testing to maintain code quality.
- Adjusted our Captive Portals to give users a simpler, more seamless experience, aligned ad sizes with STEP guidelines, and optimized rewarded videos to extend users' internet time for a longer, more enjoyable browsing experience.

INTERN DEVELOPER (WordPress Focus)

WebWorx Web Design | Cape Town, 7800 | May 2021 – October 2021 | [website](#)

Key competencies: Website Maintenance, Custom Shortcodes, Content Integration, Styling

Reason for leaving: End of internship

- Developed custom shortcodes and advanced styling for diverse WordPress themes, improving content flexibility for client websites.
- Built and updated responsive web pages, integrating new client content with modern design principles.
- Customized theme editors like Gutenberg and Total to meet client specifications.
- Utilized React, Bootstrap, JavaScript, and jQuery to enhance functionality and interactivity on multiple client sites.

INTERN DEVELOPER (Full-Stack Development)

LC Studio | On-site | September 2020 – April 2021 | [website](#)

Key competencies: Full-Stack Development, Backend Integration, Team Leadership

Reason for leaving: End of internship

- Managed small development teams on project sprints, coordinating tasks and ensuring timely delivery.
- Built secure Express.js applications and integrated backend services for dynamic websites.
- Monitored and optimized user login and registration functionalities.
- Developed and integrated dynamic websites with backend services, creating cohesive and functional web applications.
- Managed databases to efficiently handle incoming and outgoing website data.

IT SPECIALIST

ConnectZA | On-site | April 2020 – July 2020 | [website](#)

Key competencies: Network Installations, Hardware/Software Configuration

Reason for leaving: New Opportunity

- Installed and configured network infrastructure for clients, ensuring minimal downtime and optimal performance.
- Diagnosed, resolved, and updated software and hardware issues.
- Provided on-site technical troubleshooting, increasing client satisfaction through quick resolution times.
